Note:

The key concepts of communicative language teaching syllabus are the LSRW skills and the allied skills required to enrich these skills. The concepts are not difficult so as to require explanation still an overview of them would be given before embarking upon skill enhancement. Emphasis will be more on letting the learners do a number of activities and worksheets to make them confident of the skill they are working on.

A variety of texts, grammar and vocabulary exercises, speaking and listening drill, pair work, group work will be used to help the learners achieve the abovementioned learning outcomes. Materials used will be customized according to the need and level of the learner to maximize learner benefits.

A sample of the type of activities to be conducted for better understanding is provided with each unit. More activities can be constructed and used according to the time available.

Sample of the worksheets is also provided to understand the level of practice of a particular topic.

Assessment will be either oral or written according to the requirement of the particular unit and will be based on the content dealt with in the unit.

3.	Data Interpretation/Reasoning	4

Course Objectives: The objective of the course is to introduce the students:

- The basic mathematics to the students. It assumes that the students have minimal knowledge to the subject.
- To help them acquire skills in solving quantitative aptitude by simple methods (mainly based on demonstration).
- During class, time students are expected to engage in pair work.
- The main focus of the students will be on quantitative aptitude in short span of time.

Course Outcomes:

- Provide a platform to the students for building the fundamentals of basic mathematics for competitive examinations preparation strategy.
- Establish a framework to help students acquire knowledge and expertise necessary to secure employment opportunities in the Government sector.

Add on Course on “Chemistry in Medicine: The Future of Health”

Course Title:- Chemistry in Medicines: The Future of Health.

Course duration: 30 hours [26. 12.2022 to 30.12.2022, One class: 1 hour]

Academic Session - 2022-2023

Course Coordinator: Dr. Ayan Bandyopadhyay (Assistant Professor of Chemistry in W.B.E.S.)

Invited Speaker: Mr. Rajib Mandal (Assistant Professor of Chemistry in W.B.E.S.)

Organizing Committee: 1. Dr. Manan Saha (Assistant Professor of Chemistry in W.B.E.S.)

Course Overview:

The course will broadly cover all the aspects of Medicine and the simple chemistry behind it including the classification, structure, drug design, synthesis, drug delivery, drug metabolism and structure activity relationship. The new drug discovery and/or development, target identification, optimization and the molecular basis of cost-effective drug design are continuously going on. The safe and proper utilization of drugs are associated with the remedy of side effect due to heavy use of drugs over the counter. While, creating healthcare systems that make people more resilient towards the challenges of drug-resistance for various life-threatening diseases. Sustainable medicine will provide better and more effective environment for patients' well-being and increasing life expectancy. Herein, all these matters will be discussed.

Learning Objectives:

- ❖ Concept of Sustainable Medicine.
- ❖ The necessity of drugs to be synthesised by a green energy source.
- ❖ To generate awareness about different types of drugs and their need for precise uses specifically in rural areas.
- ❖ Make an awareness programme for how to prevent unnecessary heavy use of drugs to cope with their side effects and drug resistance.

Principal
Govt. General Degree College, Chapra

- ❖ To know our future drugs and their site-specific pin-point delivery.

Target Group: Students from any streams including science and arts.

Course Fee: Nil

Intake Capacity: 30

Assessment process: Students will be graded on the basis of Seminar Presentations, MCQ types question-answer mode. (F.M - 50).

Course Structure:

The course is divided into 6 modules, each consisting of six hours of lectures, discussions.

Module 1: (6 hours)

1. Session 1: Introduction to Drug Design (2 hours)

- What is drugs and medicine?
- An overview of drugs and drug targets,
- Classification of drugs,
- Various approaches used in drug design.

2. Session 2: Development of drugs (2 hours)

- Pre-clinical and clinical development,
- Importance of solubility and slow release of drugs'
- Intermolecular binding forces

3. Session 3: Structure activity relationship (2 hours)

- Physicochemical parameters used in quantitative structure activity relationship (QSAR),
- Partition coefficient & Hansch analysis,
- Hammett's electronic parameter (Preliminary ideas),

Module 2: (6 hours)

1. Session 1: Synthesis of drugs (2 hours)

- Lead discovery,
- Retrosynthesis & synthesis of some important drugs molecule,
- Prodrugs and drug delivery.

2. Session 2: Antibiotics (2 hour)

Principal
Govt. General Degree College, Chapra

- Historical background, Nomenclature and Stereochemistry,
- Structure activity relationship,
- Chemical degradation.

Session 3: β -Lactam antibiotics (2 hours)

- Penicillin,
- Cephalosporins,
- Monobactams.

Module 3: (6 hours)

1. Session 1: Aminoglycosides (2 hours)

- Streptomycin,
- Neomycin,
- Kanamycin.

2. Session 2: Tetracyclines (2 hours)

- Tetracycline,
- Oxytetracycline,
- Chlortetracycline,
- Doxycycline.

3. Session 3: Antiviral agents-I (2 hours)

- Amantadine hydrochloride,
- Rimantadine hydrochloride,
- Ritonavir,
- Idoxuridine trifluoride,
- Acyclovir.

Module 4: (6 hours)

1. Session 1: Antiviral agents-II (2 hours)

- Zidovudine,
- Lamivudine,
- Ribavirin,
- Indinavir,
- Loviride,
- Saquinavir.

Principal
Govt. General Degree College, Chapra

2. Session 2: Anti-tubercular Agents (2 hours)

- Isoniozid,
- Ethionamide,
- Pyrazinamide,
- Capreomycin sulphate
- Para amino salicylic acid.

3. Session 3: Antifungal agents-I (2 hours)

- Miconazole,
- Ketoconazole,
- Terconazole,
- Naftifine hydrochloride,
- Tolnaftate.

Module 5: (6 hours)

1. Session 1: Antifungal agents-II (2 hours)

- Clotrimazole,
- Econazole,
- Butoconazole,
- Tioconazole,
- Oxiconazole.

2. Session 2: Antifungal antibiotics (2 hours)

- Amphotericin-B,
- Nystatin,
- Natamycin,
- Griseofulvin..

3. Session 3: Effect of drugs and Future prospects (2 hours)

- Drug synergy,
- Drug resistance,
- mechanisms and synergism,
- Mechanisms of drug resistance,
- The adverse effect of heavy use of antibiotics, others drugs and our future.

Course outcome:

Principal
Govt. General Degree College, Chapra

- ❖ Develop an intellectual awareness among students to classify and identify drugs that would prevent them for extensive use of drugs like antacids, antibiotics etc without proper reason in the rural areas.
- ❖ Acquaint the knowledge on theories of development of various drugs.
- ❖ Students will be enriched by knowledge of drugs and their development, that will assist them to be ready for various competitive examination outside of their text-syllabus.
- ❖ This certificate course will help students to achieve a placement in various pharmaceutical corporations after additional training.

MINUTES OF THE MEETING

Date: 02.03.2023

Time- 1.00 PM

Place- Departmental Class Room

1. Add on Course will be held on 06. 04.2023 to 02.05.2023 (32 Hours)
2. Title of the Course – **Semiconductor Diodes : From Theory to Application**
3. Name of the Course Coordinator is Dr. Supriya Mondal, Assistant Professor, Department of Physics, GGDC, Chapra.
4. Free Add on Course with Certificates and total seats 35 (First come first preference)
5. This ADD-ON Course of Physics will work with the collaboration of IQAC of GGDC, CHAPRA

Invitation on special lecture on topic “**Semiconductor Diodes : From Theory to Application**” Speakers: **Mr. Biswajit Paul**, Assistant Professor (W.B.E.S), Department of Physics, Krishnagar Government College, Nadia, W.B.

Organizing Committee :

Chairman: Dr. Subhasis Panda, Principal, GGDC, Chapra.

Course Co-ordinator: Dr Supriya Mondal , Assistant Professor, Physics, GGDC, Chapra.

Organizing secretary: Dr.Shaik Safikul Alam, Assistant Professor, Physics , GGDC, Chapra.

Members Present:

1. Sri S Das
- 2 Dr.S S Alam
- 3.Dr. S Mondal

Memo No:-

Date.....

Minutes of IQAC Meeting held on 21/12/2022

The meeting of IQAC started at 12.30 pm at Principal Chamber on 21/12/2022 with the Principal acting as the Chair.

Agenda:

1. To confirm the minutes of the last meeting.
2. To convey and confirmation of Programmes which was collaborated with IQAC.
3. Misc.

Present members unanimously resolved that:

1. The minutes of the last meeting were read and confirm.
2. It was resolved that all programmes of the college are to be confirmed with the consideration of IQAC
3. IQAC unanimously approved the proposal of Add-on courses arranged by the Department of Chemistry and Physics.
4. NAAC co-coordinator mentioned that all members of the colleges are responsible for improving the quality of the institute. He highlighted about academic calendar, cultural calendar, formation of alumni, alumni engagement, asst register (both college wise and department wise), Mou with the others Colleges/Institutes etc.

Academic Session - 2022-2023

TITLE - Semiconductor Diodes: From Theory to Application

Course Duration – Add on Course will be held on 06. 04.2023 to 02.05.2023
(32 Hours), One class: 1 hour

Course Objectives –

- 1) To understand basic concept of semiconductors, Semiconductor diodes & their characteristics.
- 2) To provide a broad coverage of solid state devices
- 3) Describe the motion of free electrons & vacancies through a P N junction.
- 4) To study & verify the fundamental of P N junction diode in forward bias.
- 5) Acquire the fundamental knowledge.

Course outcomes- After completing this course students will be able to

- 1) Identify & understands construction & properties of P N junction diode, Zener diode light emitting diode photodiode varactor diode & their V-I characteristics.
- 2) Become aware of the general characteristics of three important semiconductor materials.
- 3) Test semiconductor diodes range small signal diode, Zener diode

Opportunity: 1) There are many opportunities in designing & manufacturing diodes

- 2) Silicon diode in a D.C Circuit Assembly using connectors blocks.
- 3) Great strides have been made in the manufacturing techniques.

Principal
Govt. General Degree College, Chapra

Assistant Professor (WBES)
Govt. General Degree College, Chapra
HOD
Dept of physics

Course contents :

- 1) **Unit 1:-** Semiconductor Diodes, Resistance of crystal diode, crystal diode equivalent circuit, crystal diode rectifiers filter circuits.
2) **Unit 2:-** Semiconductor (Definition) type of semiconductor, P N junction diode, light emitting diode zener diode, photo diode, varactor diode & their characteristics

Book Recommended:

- 1) Principles of Electronics, - V.K. Mehta, Rohit Mehta, S chand 11th Revised Edition 2008 New Delhi 110055
2) Electronics Circuit: - Hand book & design & application, U. Tietze 2008 springer.

Target Group- Students of Physics and Science

Course Fee- Nil

Intake Capacity- 35 (All students of Science Honours course, General)

Assessment process- Students will be graded on the basis of Seminar Presentations, MCQ types question-answer mode. (F.M-50)

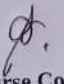

Students' feedback- To be taken via feedback form
