The Green Campus, Energy and Environment Policy of Government General Degree College Chapra

The Context

Government General Degree College Chapra, a rural-based remotely located General Under Graduate Degree College, is located at the outskirts of the village Shikra in the Chapra Block of Nadia district in West Bengal (India), approximately 3 km from Indo-Bangladesh International Border. The college is surrounded by enriched cultivated crop fields possessing both cultivated and wild crop relatives, naturalized and exotic flora and fauna of Indo-Bangladesh in origin. Therefore, College Campus itself is the shelter place of a varieties of insects including butterflies, snakes, birds, earthworms, wild cultivated plants, and of course our developing Green Campus due to our efforts. Our principle policy and slogan is "SUSTAINABLE WAY OF LIVING, SUSTAINABLE WAY OF LIVELIHOOD and SUSTAINABLE WAY OF DAY-TO-DAY PRACTICE" not for our existence, but for our future generations, future biodiversity, future Environment, future energy and for the stability of our beloved mother Earth. In this context, we follow and respect the University Grants Commission's (UGC) proposal on sustainable campus framework to set out the principles for achieving a Green Campus and sustainable environment for Indian Higher Education Institutions in the year 2020.

The Mission

Our mission is to clean the Campus, greening the Campus, to save the biodiversity of the Campus, to save water, to use energy sustainable way and to observe our Environment sustainably. The concept of Green Campus provides an institution with the opportunity to reiterate its environmental culture through new paradigms and dimensions in respect to create final solutions to the environmental, social, and economic needs of mankind. A real Green Campus mimics a 'Natural Abode' where environmentally friendly practices and education systems jointly promote sustainable and eco-friendly ambience in the campus.

Notice No. 97/22/CGC

Date: 6th June 2022

Objectives of the Policy

- To make all stakeholders comprehend the importance of the environment and its problem areas.
- To create awareness among different stakeholders to educate local communities.
- To protect and conserve local biodiversity hotspots, existing small patches of relic ecological systems and natural resources inside and outside the Campus.
- To work with the local community for the purpose of enhancing the environmental protection, practices and energy conservation strategies among the rural communities.
- To assess environmental concerns of the policies, plans and programmes for educational, social development and outreach activities.
- To ensure legal usage of environmental resources.
- To make the campus Plastic-free.
- To conserve each member of biodiversity in the campus and just outside the campus.

Scope of the Policy

The initiatives, efforts, attitudes and policies for the conservation of local biodiversity hotspots, local relic patches of ecological systems, energy, environment and Green campus activities by Govt General Degree College Chapra will develop towards a sustainable environment, sustainable nature and sustainable way of livelihood. Being the future nation builders of society, our undergraduate students and their teachers are expected to disseminate these above activities to the young minds of the nearby Schools through various activities.

Focus areas of this Policy are:-

- Clean Campus initiatives including Plastic-free Campus
- Infrastructure initiatives
- Clean Air initiatives
- Green Campus initiatives
- Solar Power Plant
- Installation of Energy Efficiency equipments
- Environment-centric Students-Community-Departments (College) Activities
- Regular Awareness initiatives
- Waste Management processes: Solid & Liquid Waste Management
- E-Waste Management

The Green Campus, Energy and Environment Policy of Government General Degree College Chapra

The Context

Government General Degree College Chapra, a rural-based remotely located General Under Graduate Degree College, is located at the outskirts of the village Shikra in the Chapra Block of Nadia district in West Bengal (India), approximately 3 km from Indo-Bangladesh International Border. The college is surrounded by enriched cultivated crop fields possessing both cultivated and wild crop relatives, naturalized and exotic flora and fauna of Indo-Bangladesh in origin. Therefore, College Campus itself is the shelter place of a varieties of insects including butterflies, snakes, birds, earthworms, wild cultivated plants, and of course our developing Green Campus due to our efforts. Our principle policy and slogan is "SUSTAINABLE WAY OF LIVING, SUSTAINABLE WAY OF LIVELIHOOD and SUSTAINABLE WAY OF DAY-TO-DAY PRACTICE" not for our existence, but for our future generations, future biodiversity, future Environment, future energy and for the stability of our beloved mother Earth. In this context, we follow and respect the University Grants Commission's (UGC) proposal on sustainable campus framework to set out the principles for achieving a Green Campus and sustainable environment for Indian Higher Education Institutions in the year 2020.

The Mission

Our mission is to clean the Campus, greening the Campus, to save the biodiversity of the Campus, to save water, to use energy sustainable way and to observe our Environment sustainably. The concept of Green Campus provides an institution with the opportunity to reiterate its environmental culture through new paradigms and dimensions in respect to create final solutions to the environmental, social, and economic needs of mankind. A real Green Campus mimics a 'Natural Abode' where environmentally friendly practices and education systems jointly promote sustainable and eco-friendly ambience in the campus.

Notice No. 97/22/CGC

Date: 6th June 2022

Objectives of the Policy

- To make all stakeholders comprehend the importance of the environment and its problem areas.
- To create awareness among different stakeholders to educate local communities.
- To protect and conserve local biodiversity hotspots, existing small patches of relic ecological systems and natural resources inside and outside the Campus.
- To work with the local community for the purpose of enhancing the environmental protection, practices and energy conservation strategies among the rural communities.
- To assess environmental concerns of the policies, plans and programmes for educational, social development and outreach activities.
- To ensure legal usage of environmental resources.
- To make the campus Plastic-free.
- To conserve each member of biodiversity in the campus and just outside the campus.

Scope of the Policy

The initiatives, efforts, attitudes and policies for the conservation of local biodiversity hotspots, local relic patches of ecological systems, energy, environment and Green campus activities by Govt General Degree College Chapra will develop towards a sustainable environment, sustainable nature and sustainable way of livelihood. Being the future nation builders of society, our undergraduate students and their teachers are expected to disseminate these above activities to the young minds of the nearby Schools through various activities.

Focus areas of this Policy are:-

- Clean Campus initiatives including Plastic-free Campus
- Infrastructure initiatives
- Clean Air initiatives
- Green Campus initiatives
- Solar Power Plant
- Installation of Energy Efficiency equipments
- Environment-centric Students-Community-Departments (College) Activities
- Regular Awareness initiatives
- Waste Management processes: Solid & Liquid Waste Management
- E-Waste Management

GREEN, ENVIRONMENT AND ENERGY AUDIT CERTIFICATE

ACADEMIC YEAR 2022--2023

This is to certify that Government General Degree College, Chapra located at outskirts of the village Shikra, P.O. Padmamala, PS. Chapra, Nadia, West Bengal, Pin-741123, has steadfastly strived to establish a robust and ecologically sustainable environment, dedicated to the preservation of nature and biodiversity. Institute of Nature Research and Conservation (INRC) expresses satisfaction following the successful completion of the Green, Environment, and Energy Audit for the academic year 2022-2023.

This accomplishment has been made possible through the active and moral support extended by the Honourable Principal, the IQAC Team, dedicated Environment Management Team, Green Campus Monitoring Team, the dedicated teaching and support staff, and the enthusiastic student body of Government General Degree College, Chapra. Their collective efforts have significantly contributed to the creation of a positive and eco-friendly atmosphere on the campus.

The commitment demonstrated by both faculty and students towards environmental improvement and the conservation of biodiversity is truly commendable. This proactive approach aligns with the highest standards of ecological stewardship, reflecting a genuine dedication to sustainable practices.

This certificate serves as recognition for the outstanding efforts undertaken by Government General Degree College, Chapra to foster a healthier and more environmentally conscious campus. We applaud their commitment to creating a positive impact on the environment and encourage the continuation of such admirable initiatives in the future. Great Initiatives and efforts on Conservation of Local Biodiversity Hotspots by the Principal and its NSS Unit along with NGO reveals its uniqueness in India as well.

SAMPLE PHOTOGRAPHS OF FUNGAL DIVERSITY

Diversity of Fungi in GGDC, Chapra Campus

More than 20 species of Fungal diversity observed by the experts (Dr. Anirban Roy, West Bengal Biodiversity Board, Dr. Prakash Pradhan, Mycologist, WBBB, Prof. Krishnendu Acharyya, Mycologist, University of Calcutta) since September 2022 till March 2024. Family Agaricaceae and Polyporaceae in the Basidiomycota, dominates the fungal flora. *Schizophyllum*, *Agaricus*, *Polyporus*, *Coprinus*, *Chlorophyllum* etc. are the common members of fungi observed in GGDC Chapra Campus. Images of two uncommon species are provided here.
